## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. The following is an examiner's statement of reasons for allowance:

The prior art of the record does not teach or suggest a supporting structure for a brush less AC/DC starter generator with a permanent magnet generator including inter alias having an exciter generator, having a second armature on the rotor, and a second magnetic field on said stator a main generator, having a third magnetic field on said rotor, and third and fourth armature, on said stator a generator control unit electrically connected to said first armature to sense the speed of rotation of said rotor, and electrically connected to said fourth armature to sense the load on said armature, and electrically connected to said second magnetic field, to vary said second magnetic field.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
